with hosts and guests

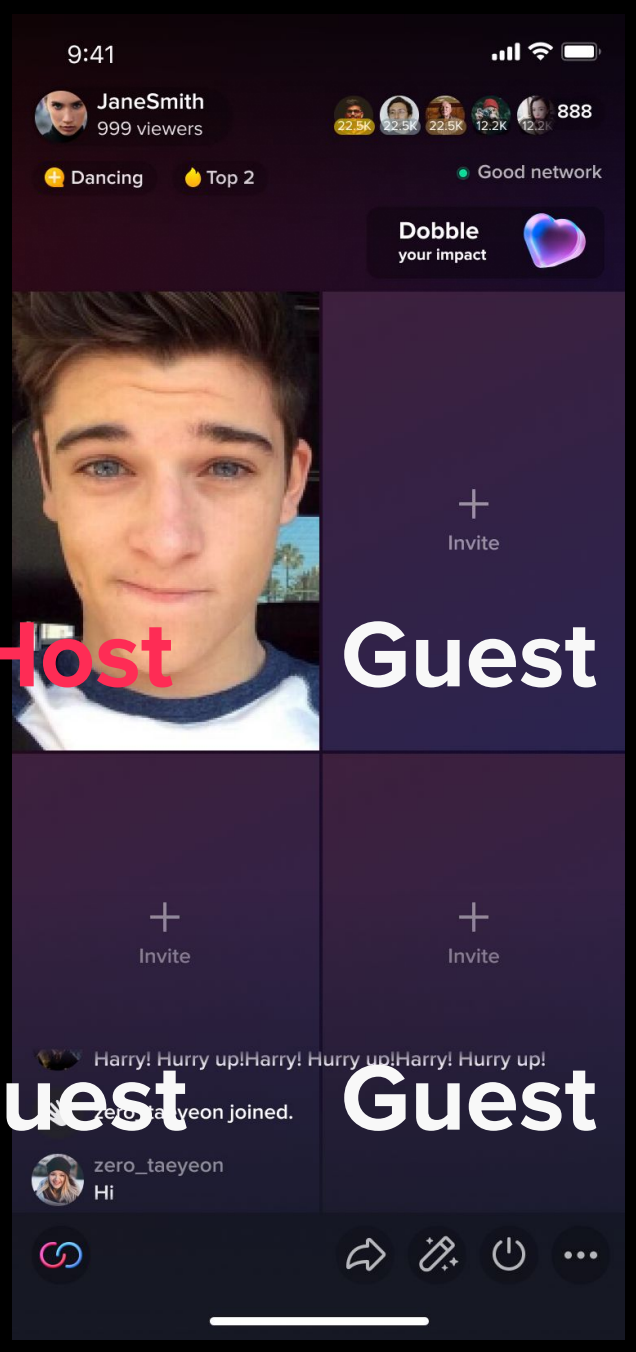

TikTok LIVE

What is Multi-guest?

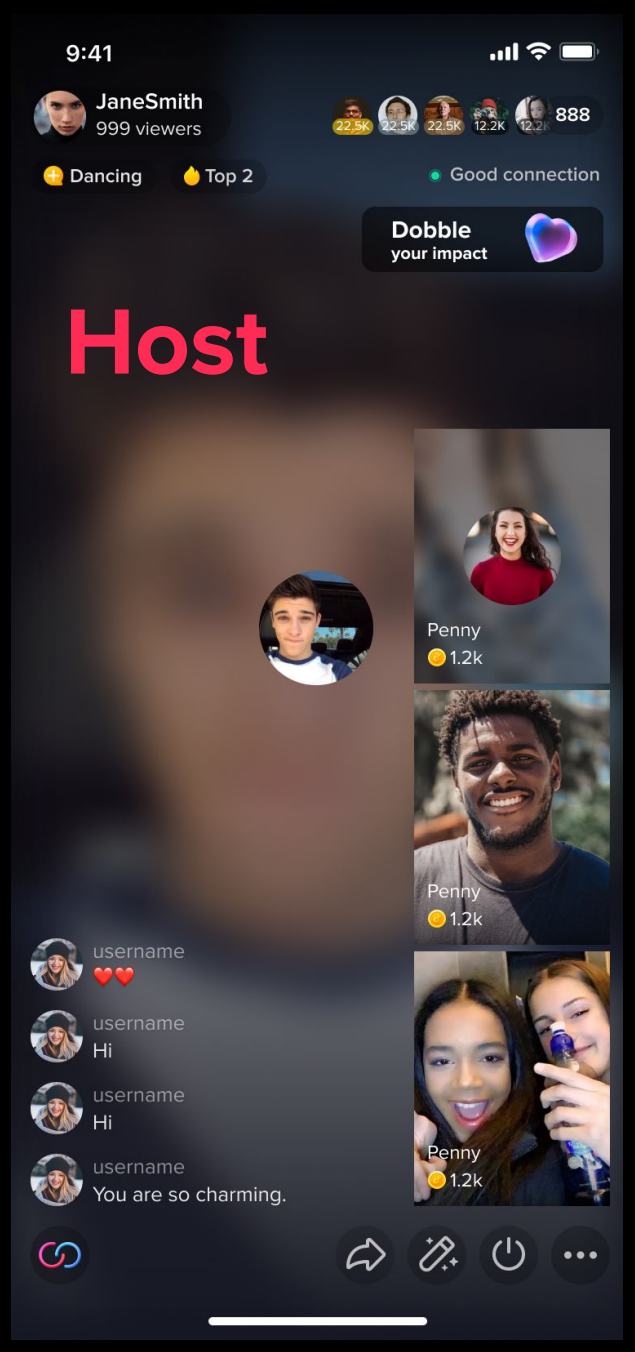

This feature allows hosts to interact with viewers during LIVE. Viewers can send guest requests to connect with hosts. Up to 3 viewers can chat online in audio or video mode with the host during LIVE. Viewers can watch/hear their chatting and send gifts to hosts and guests.

There are two types of layout settings: Panel and Grid. The host can change the layout before or during LIVE.

Grid

Panel

Invite Guests Process

Step 1

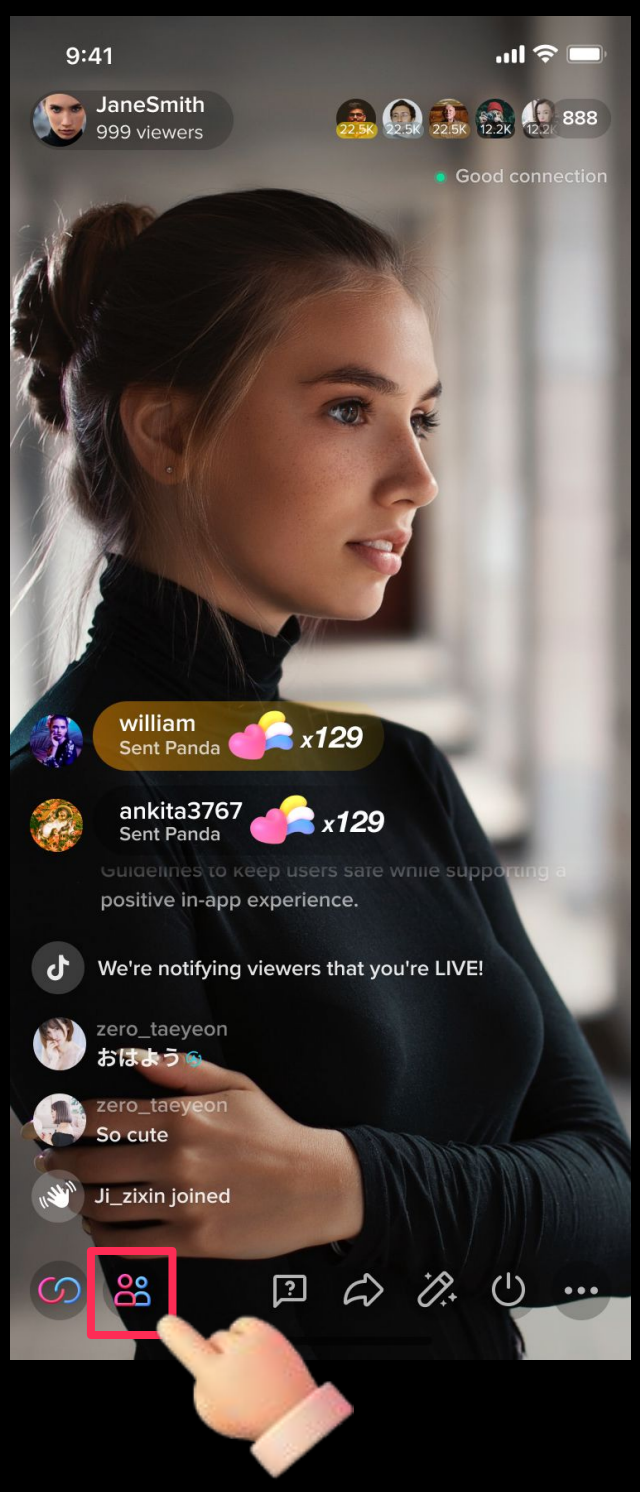

Select **Multi-guest** icon and start

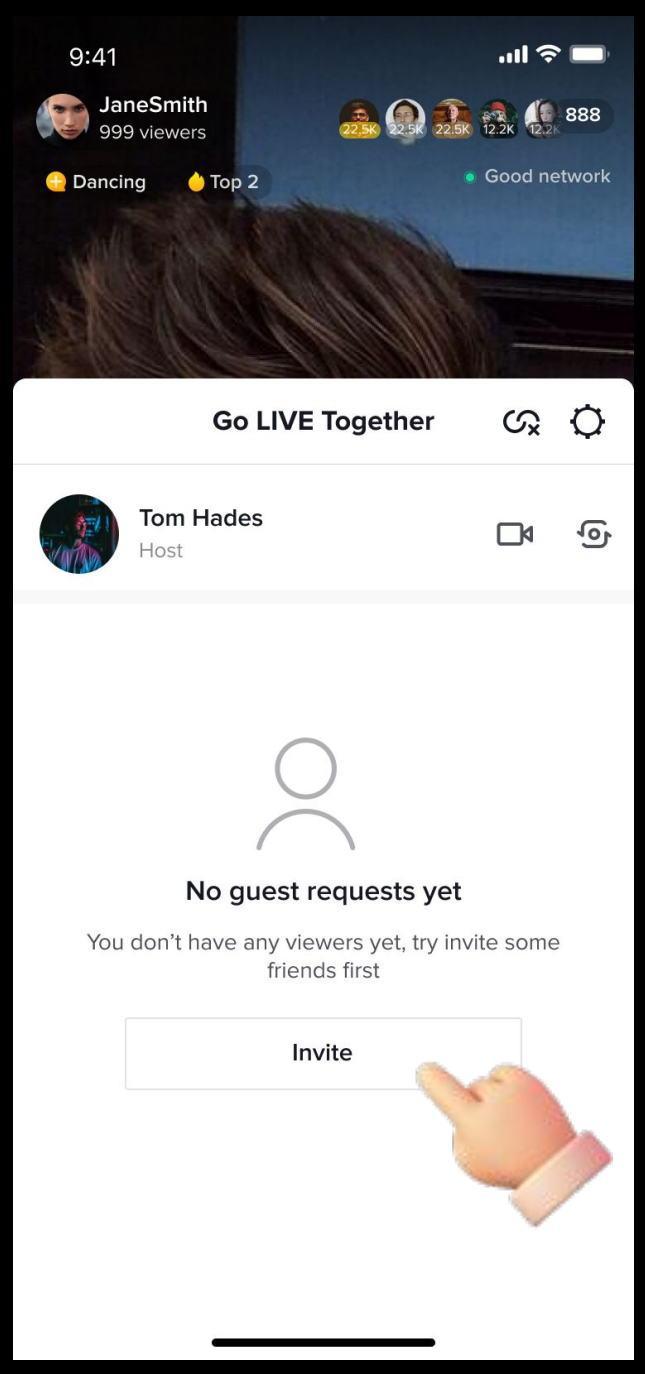

Step 2

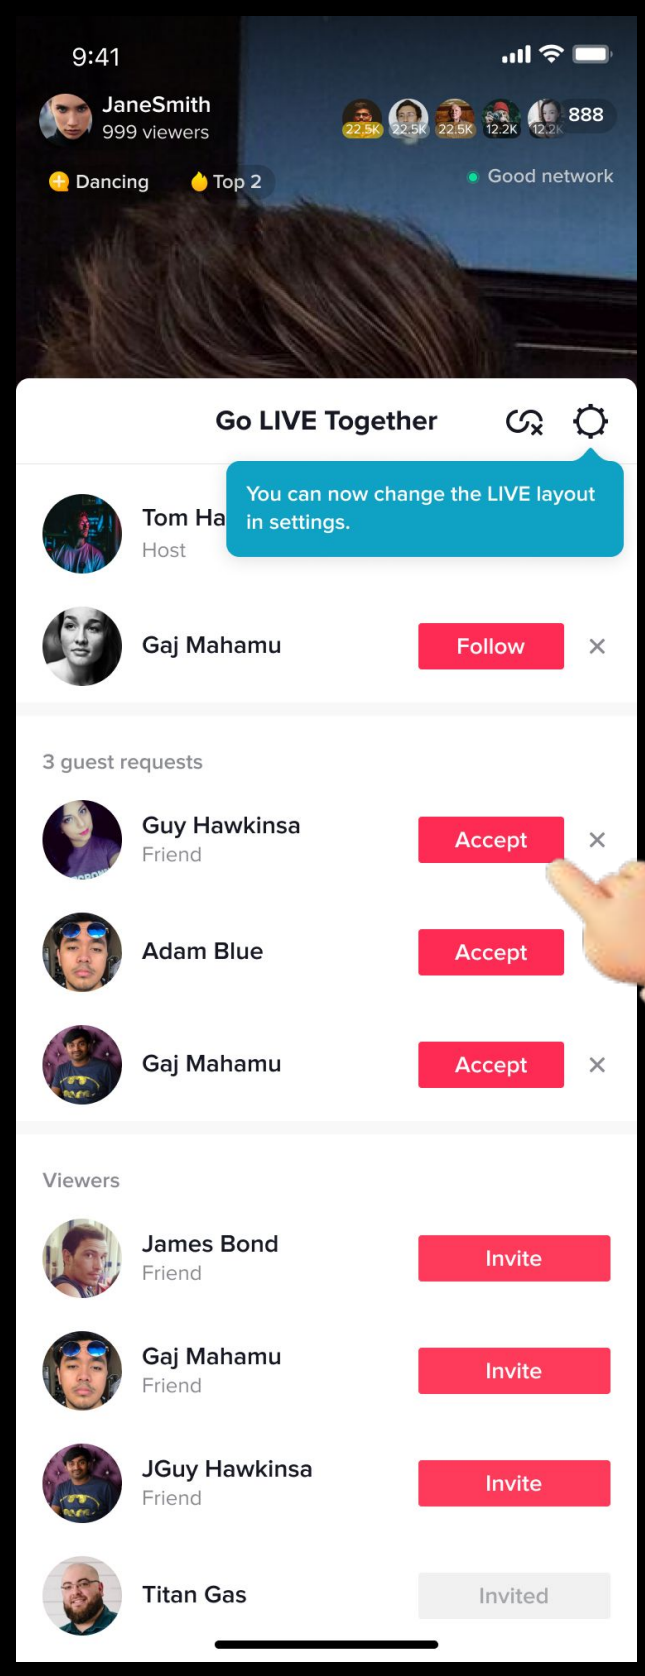

Invite other hosts or friends to join as guests

Step 3

Accept friends or viewers' invitations

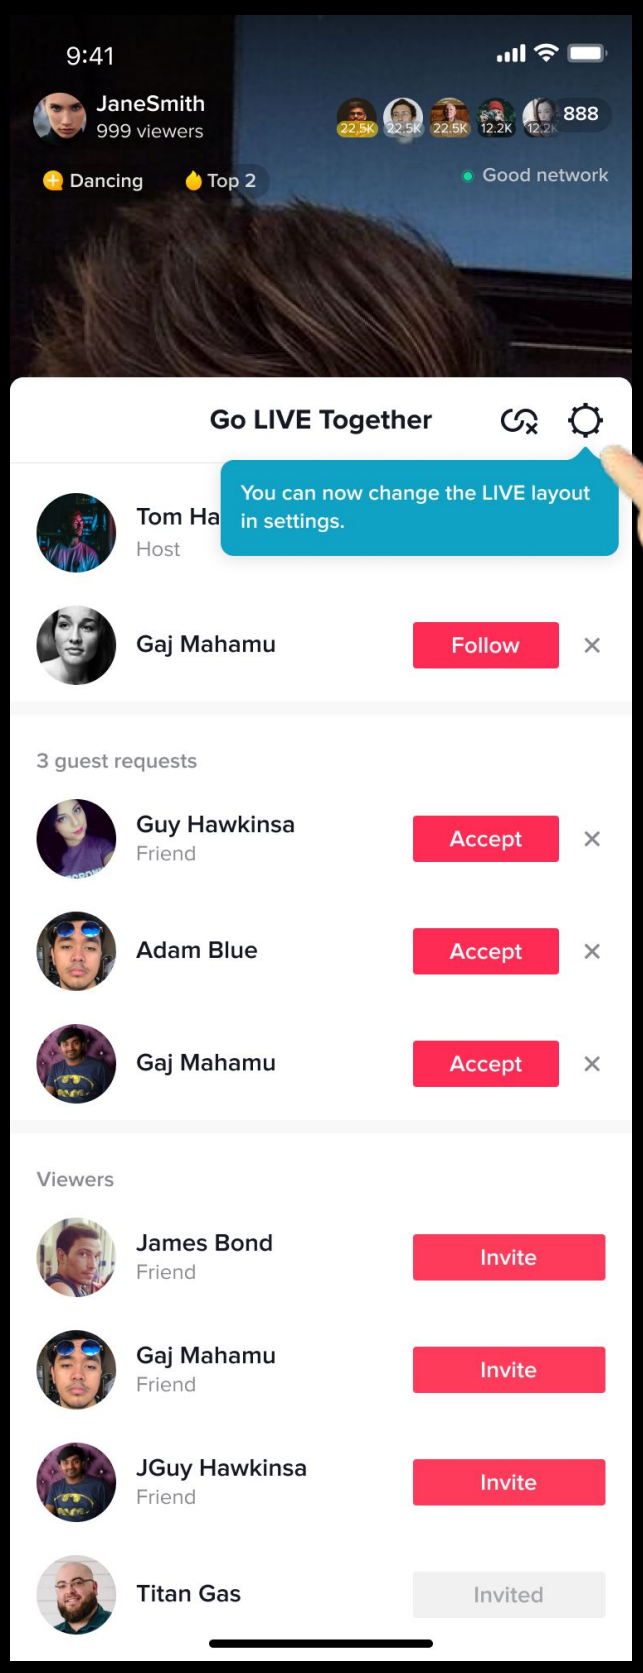

Invite Guests Process

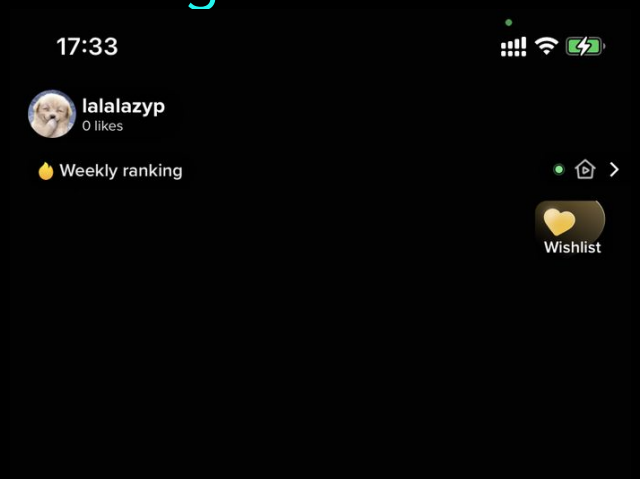

Step 4

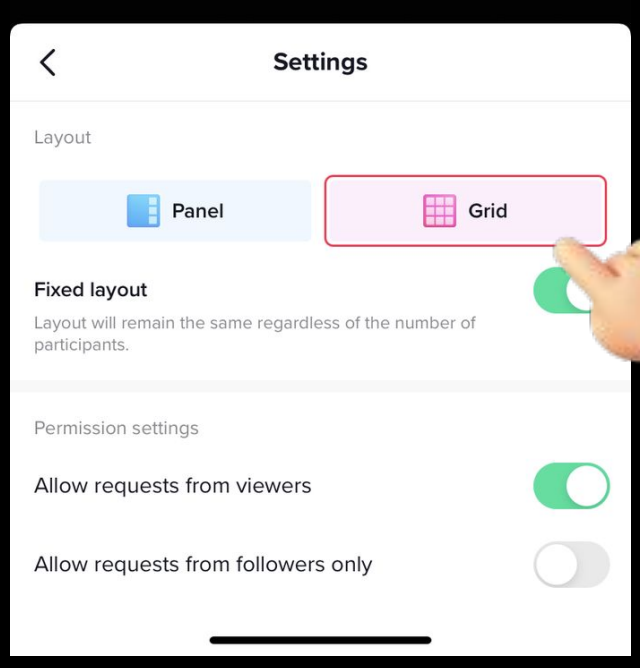

Tap **Settings** icon to make changes

Step 4-1

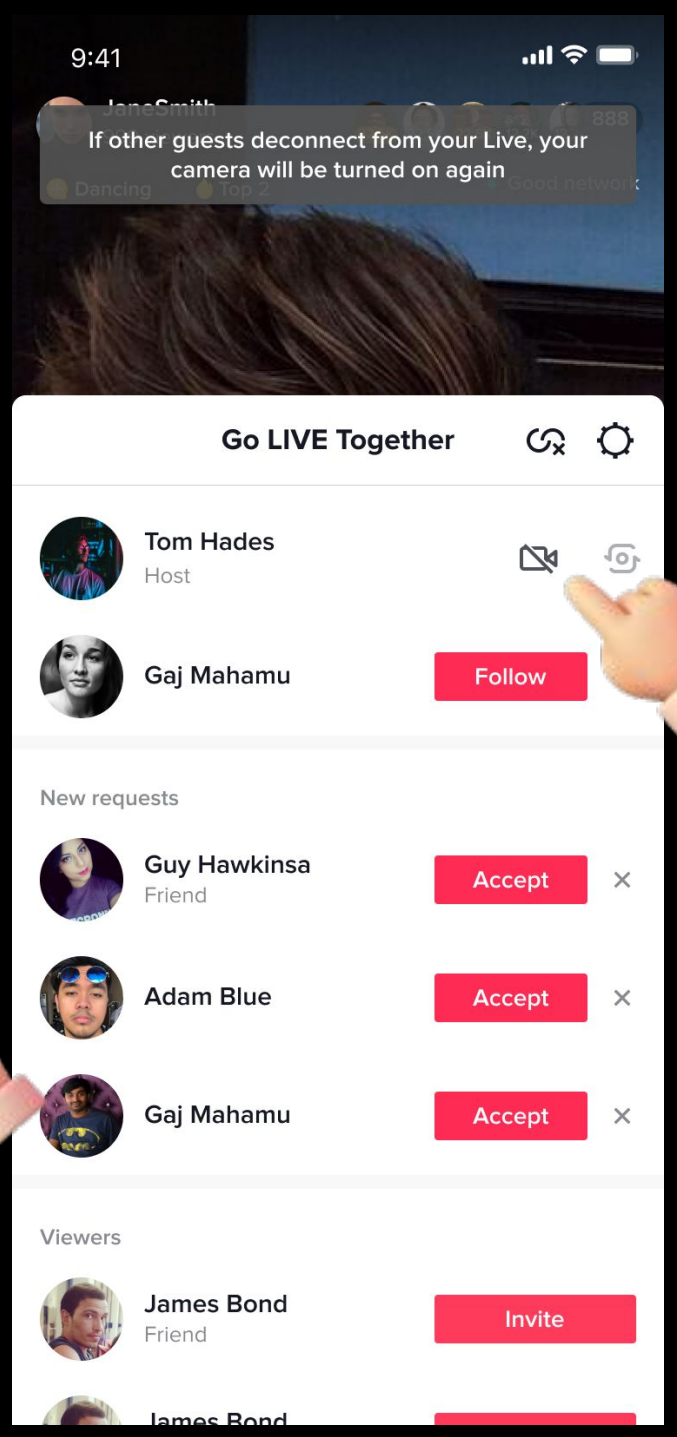

You can change **Layout** and **Permission settings** before or during LIVE

Step 4-2

The host can only turn off camera* if other guests are connected.

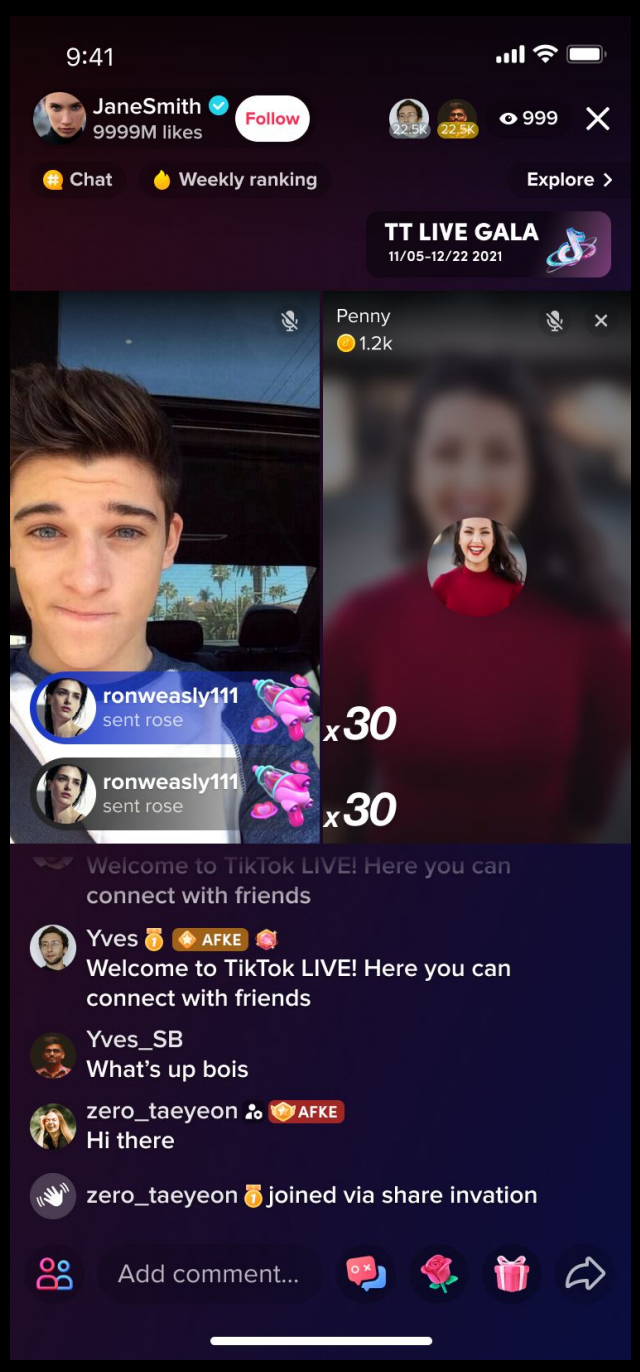

Note: The host can’t turn off camera in EU and US.

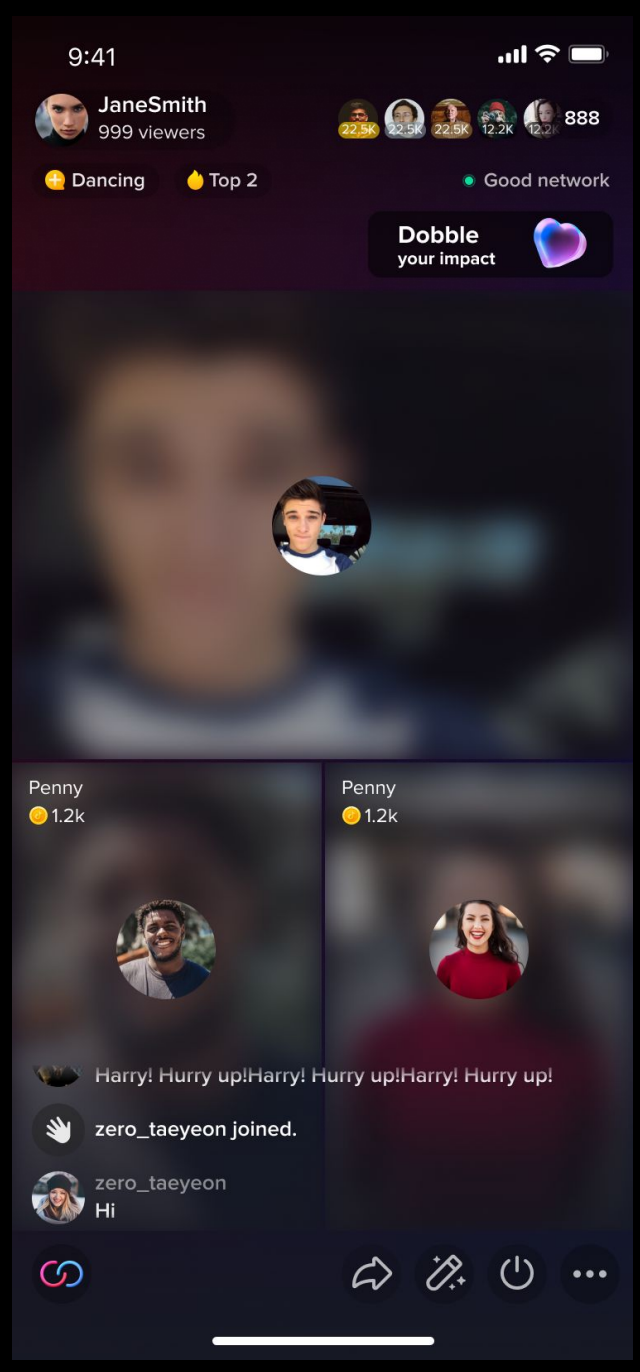

Grid Layout

Grid layout gives guests more exposure on the screen. This layout is preferred for talent performing, game room, social dating, etc.

1 + 2

1 + 3

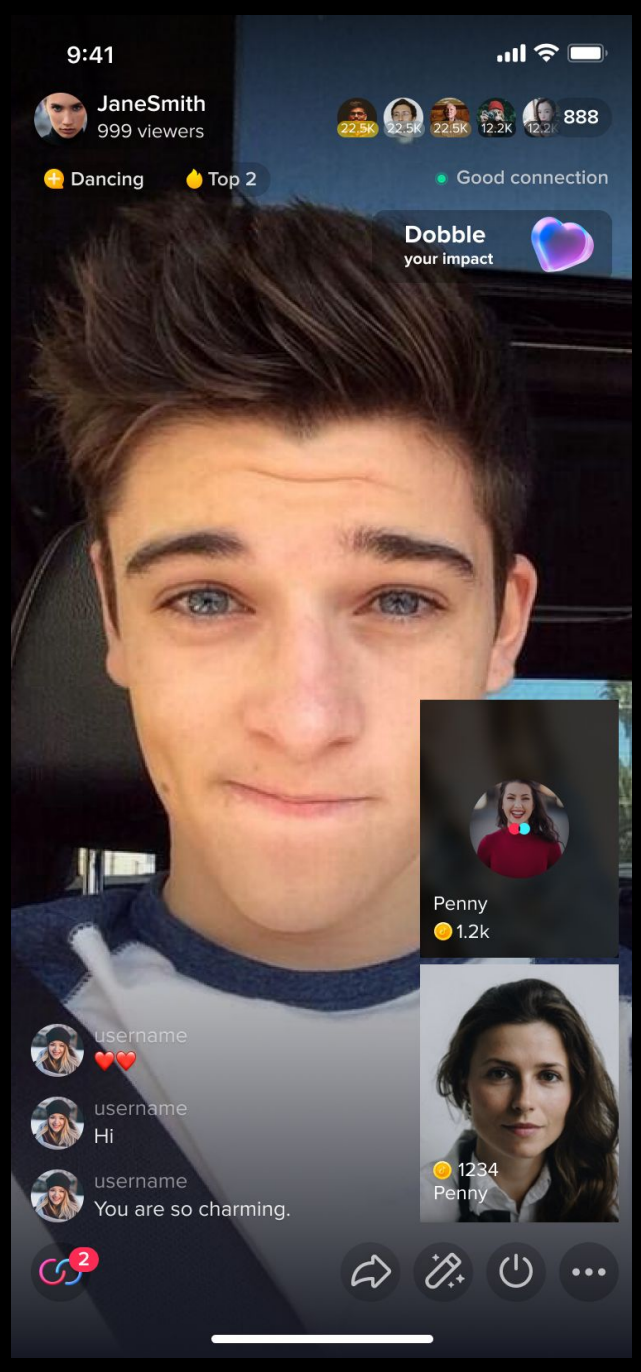

Panel Layout

Panel layout keeps the host on the main screen. This layout is preferred for 1-on-1 consulting, guest audio chatting, etc.

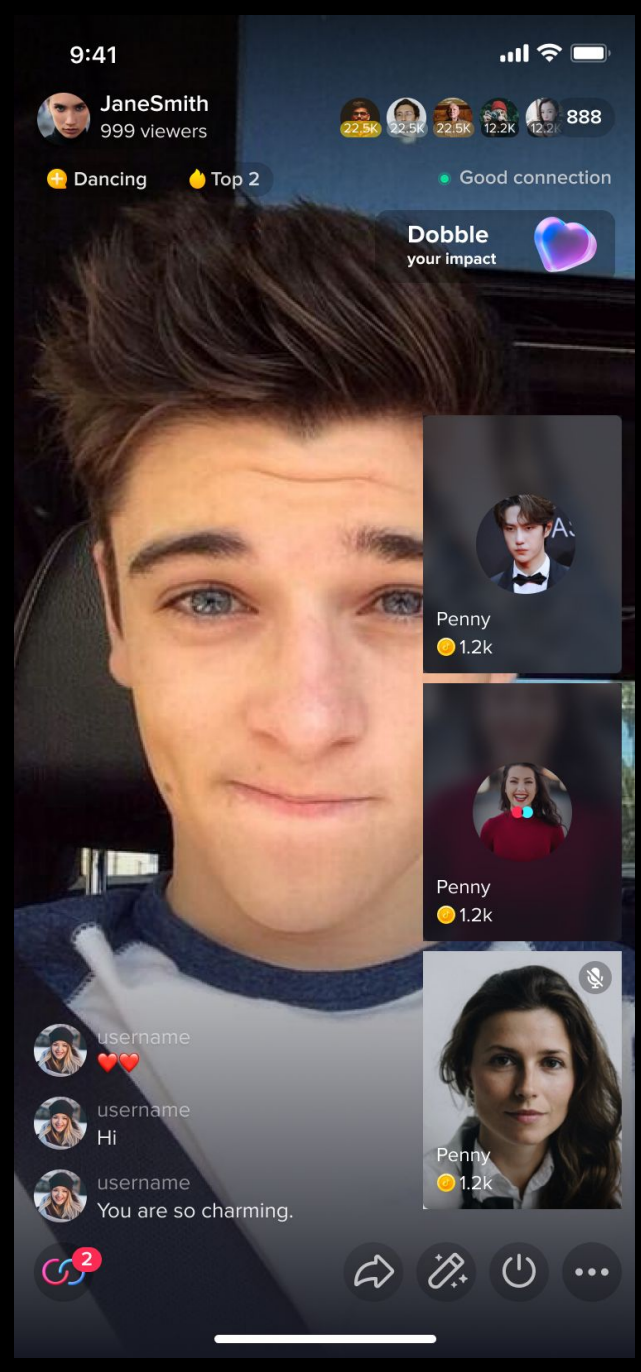

1 + 1

1 + 2

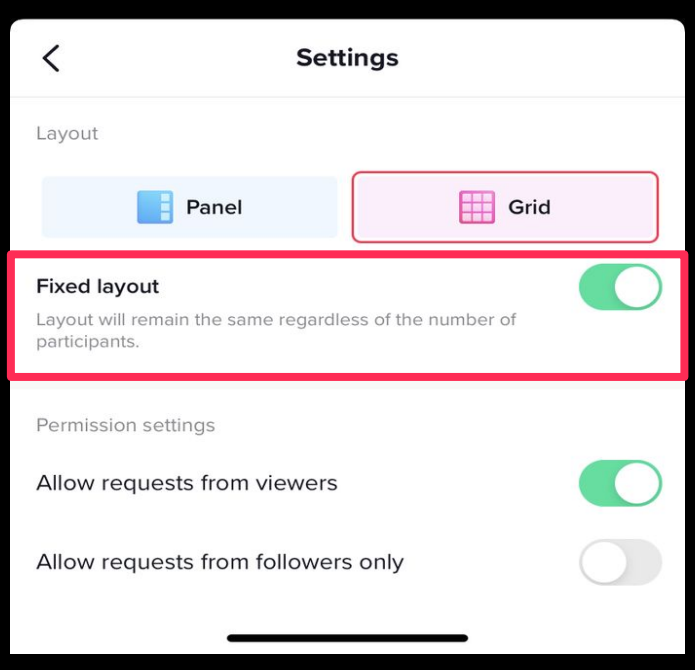

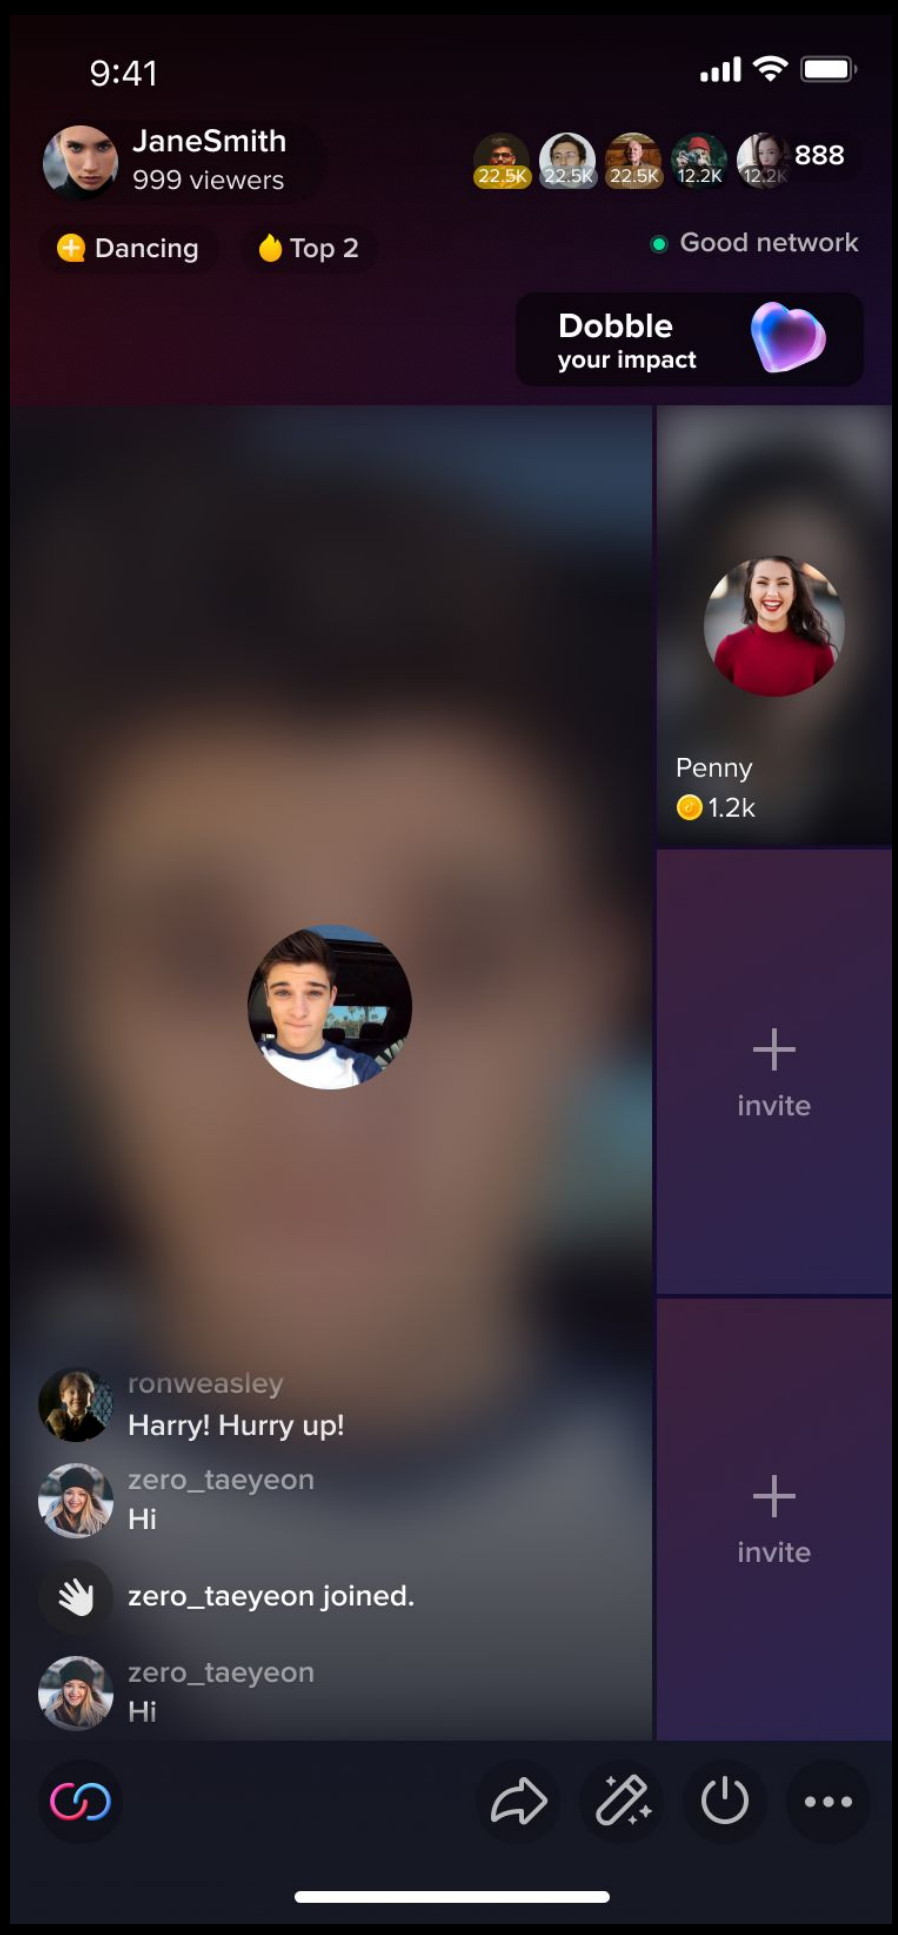

1 + 3

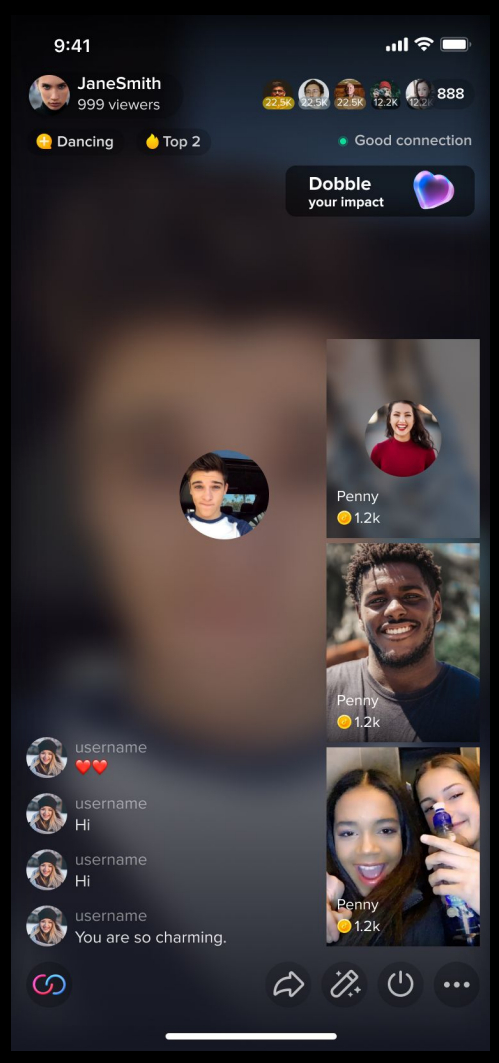

Fixed Layout

When **Fixed layout** is selected, the layout will remain the same regardless of the number of participants. Otherwise, the layout will automatically adapt based on the number of viewers

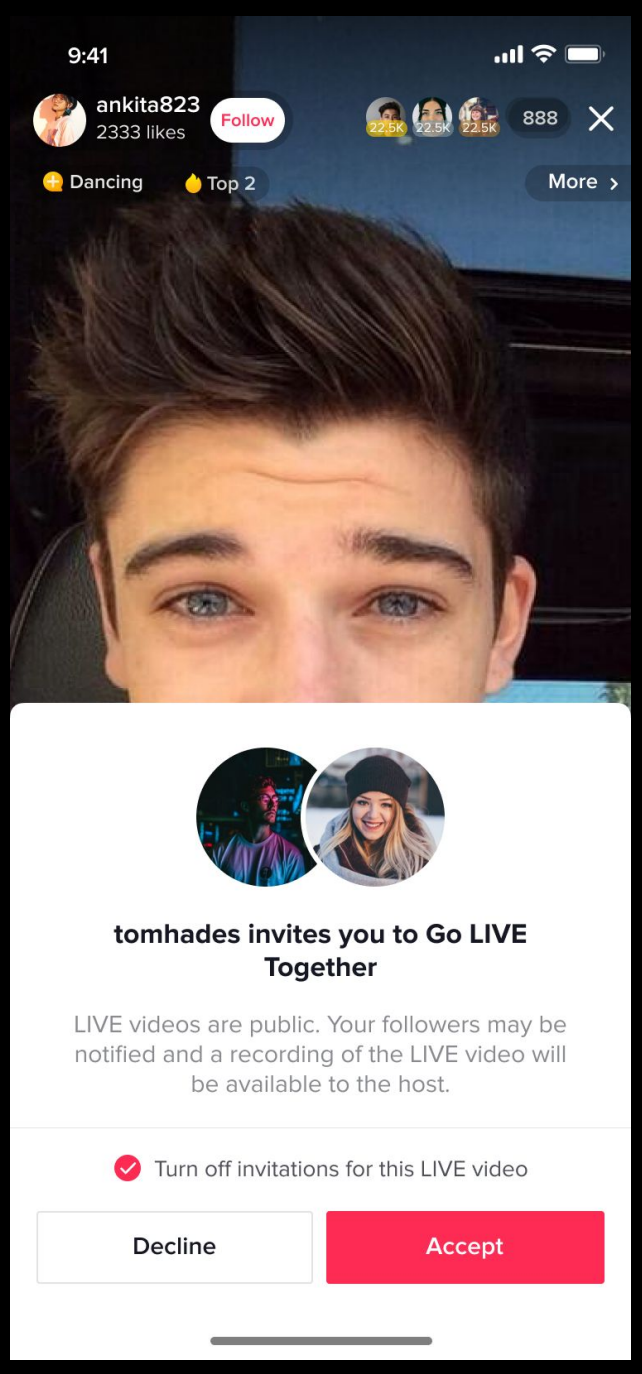

Accept Request Process

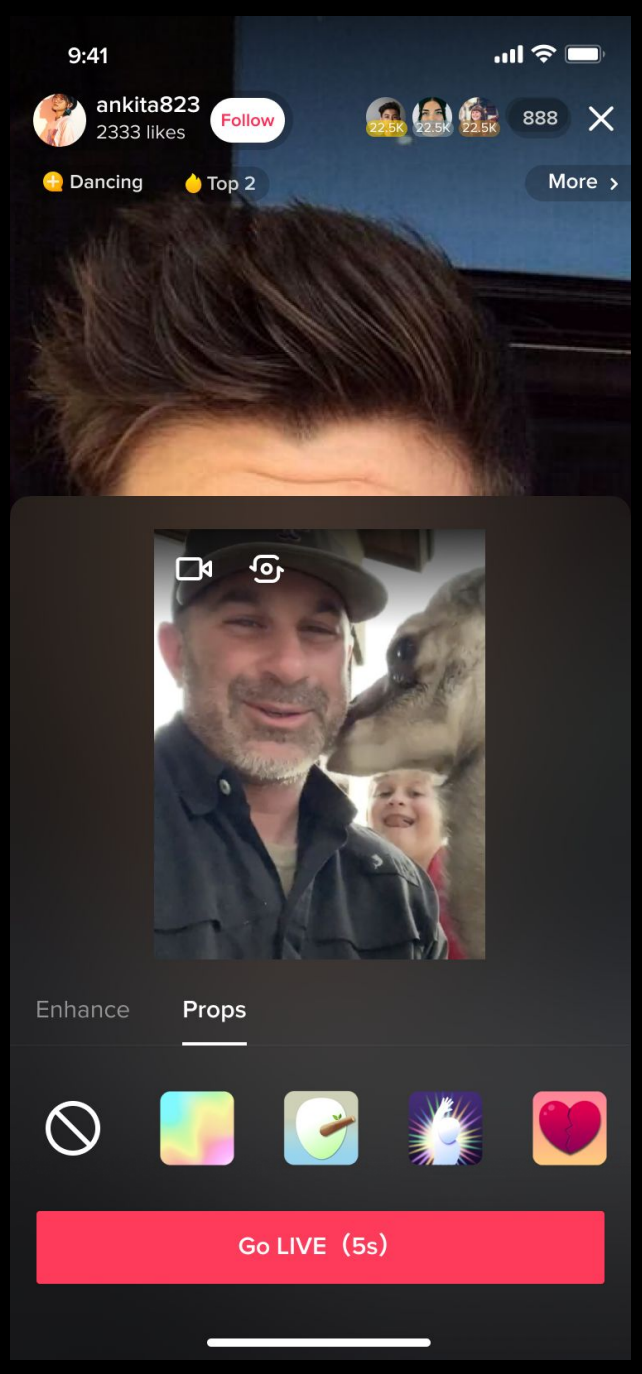

Step 1

When someone invites you to multi-guest, you will receive a notice in-app.

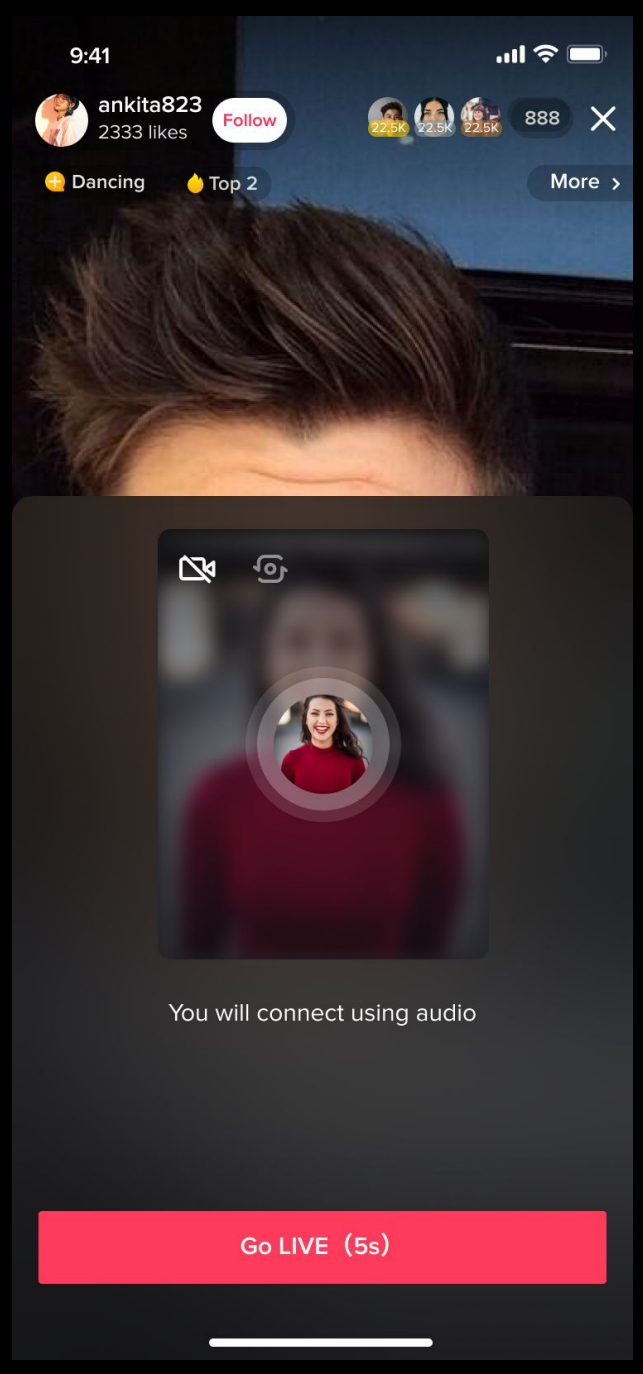

Step 2

When you accept the invitation, the preparation panel will be shown to add Enhance or turn on/off camera.

Step 3

After 5 seconds, you will be connected to the LIVE.

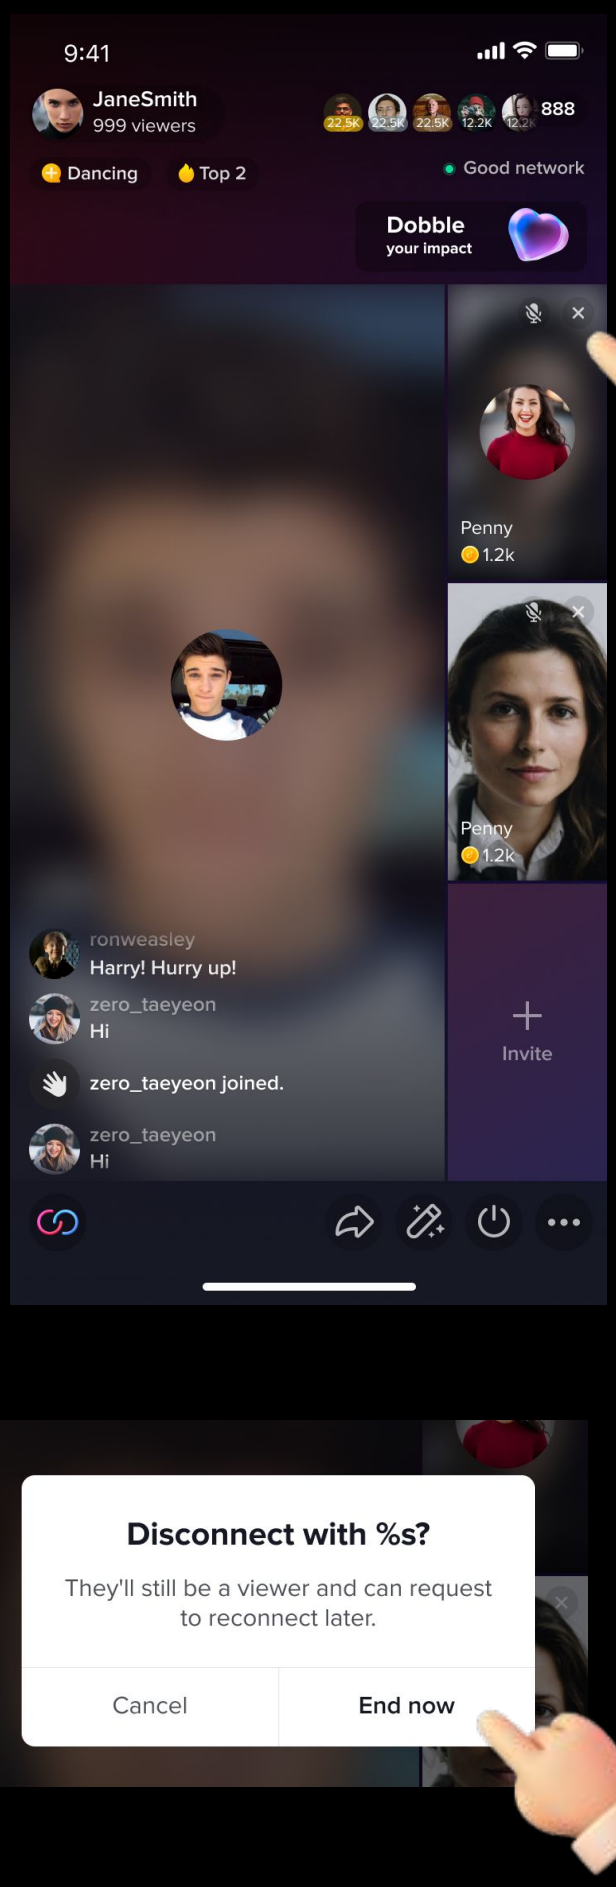

Disconnect Process

There are three ways to disconnect. 1/in LIVE room; 2/Multi-guest settings page; 3/Guest's profile page

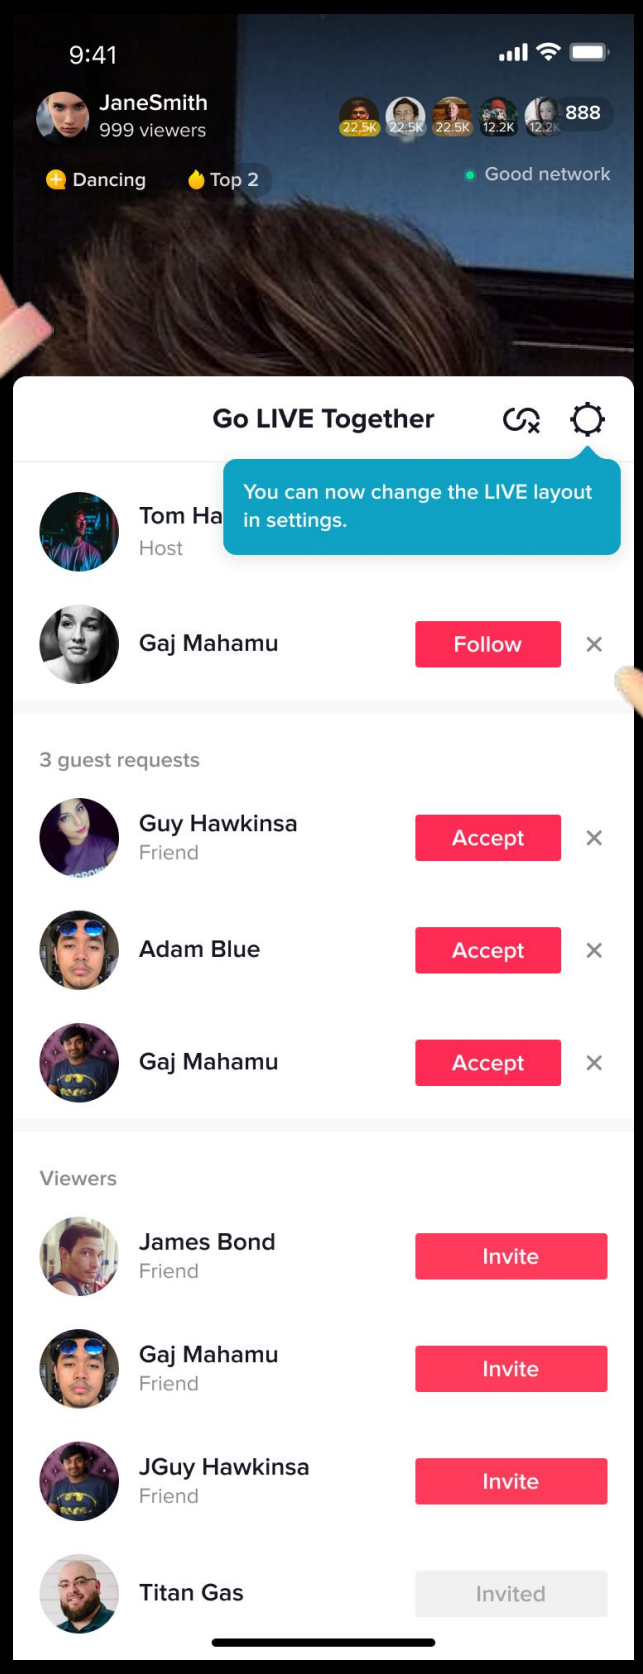

Method 1

Tap **X** to disconnect in LIVE room

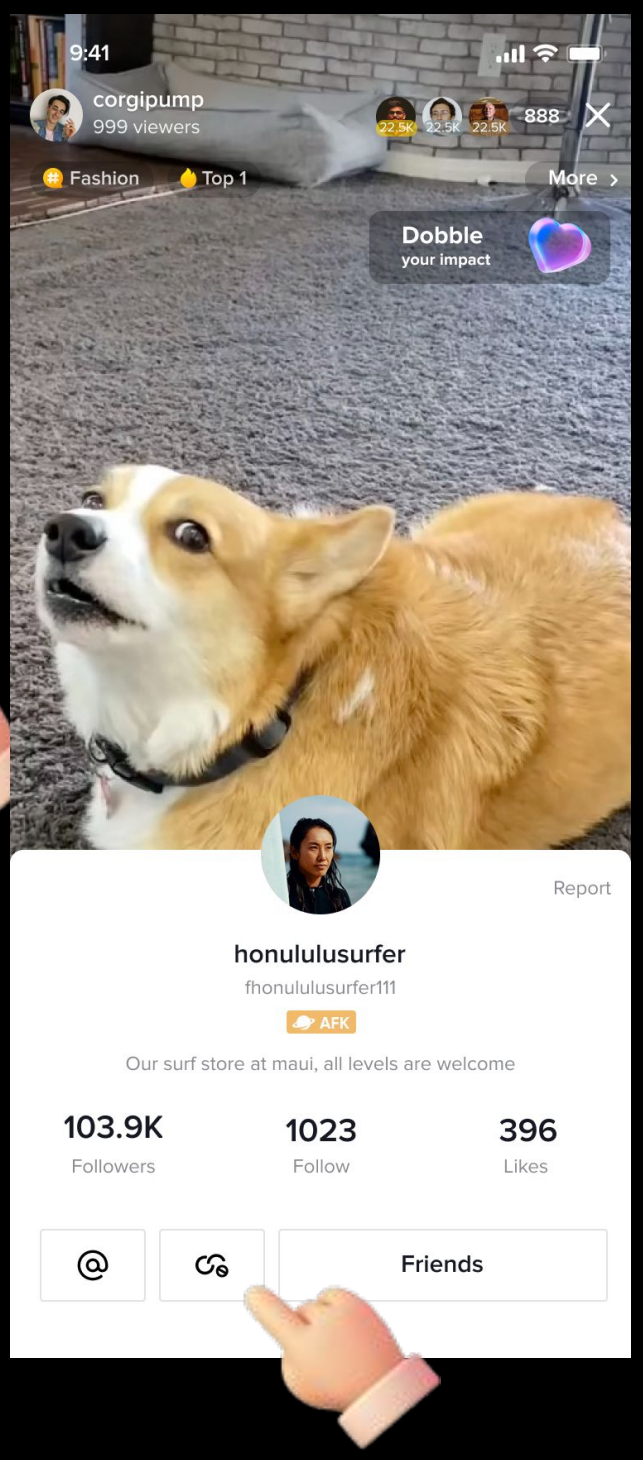

Method 2

Tap **X** to disconnect at **Settings** page

Method 3

Tap **Disconnect** icon at guest's profile page
